Maine Boatbuilders Honored with Award

MARINERS AWARD On August 24, 2017, Maine Maritime Museum honored Maine boatbuilders with the 12th annual Mariners Award, given to an individual or organization that has made extraordinary contributions to Maine's maritime heritage and significantly impacted the state's culture and economy. The award was presented to Maine Built Boats on behalf of all of the state's boatbuilders. Jon Johansen, president of Maine Built Boats, accepted the award.

Around 150 guests, including community members, museum supporters, and boatbuilders, attended the celebration. Proceeds from ticket sales and live and silent auctions will support the museum's traditional skills programs.

"We present this award to highlight how important our maritime culture is to the state of Maine – and how this heritage has national significance. The state's boatbuilding industry is strong, and Maine-built boats are recognized for their quality all around the world, because of the collective efforts of boatbuilders, and also the yard owners, the suppliers, and all the related trades necessary to the industry," said Amy Lent, the museum's executive director.

Previous Mariners Award recipients include Eimskip USA, William Haggett, the National Maritime Historical Society, and the employees of Bath Iron Works.

Sixth Annual Global Outreach Conference to be Held December 7

Maine Built Boats' sixth-annual boatbuilding industry conference is scheduled for Thursday, December 7, 2017, at the Maine Maritime Museum in Bath. The Maine Built Boats Global Outreach Conference will offer boatbuilding industry executives, managers, technicians and marketers ideas for expanding their business outside of Maine and the United States.

Every year conference organizers choose seminar topics and presenters that will support, promote and further the Maine boatbuilding industry. Past seminars have been led by yacht designers, research professionals, marketing experts, and boatbuilders. The 2017 Maine Built Boats seminar topics include:

- **Building the DDG-51 Arleigh Burke Destroyer**
- **Outfitting Boats for Long-Distance Cruising or Racing**
- **Wood Dynamics in Boatbuilding**
- **Propulsion Technology**

Full seminar descriptions and ticket information is available online at www.maineboatbuildersconference.com. The all-day event is open to both the trade and the public. Lunch is included in ticket prices.

A limited amount of exhibit space is also available. Companies interested in marketing their products and services to the boatbuilding industry may email info@mainebuiltboats.com for details.

FRONT STREET SHIPYARD

Welcome to the most capable and versatile boatyard in northern New England. Front Street Shipyard in Belfast, Maine, is a boatbuilder, repair yard, storage facility and marina on Penobscot Bay with an expansive shop space and broad capabilities. We cater to the needs of every type of vessel ranging from small recreational boats to commercial vessels and superyachts.

We founded Front Street Shipyard to create a place in Maine where yachts of all sizes from all over the world can get the best possible service and attention. Front Street Shipyard has deep-water frontage, state-of-the-art equipment and a forward-thinking workforce.

The cornerstone of Front Street Shipyard is our depth and breadth of experience in boatbuilding, restoration and refits. In addition

to our Belfast location, we have a production boatbuilding facility in Bucksport and a ferry-construction partnership called Arcadia Alliance.

In 2018 Front Street Shipyard is expanding with a new 21,700-sq-ft shed to accommodate even more vessels for construction and refits.

To our capable team at Front Street Shipyard, each project is unique and ripe with possibility. There is only one consistency maintained throughout each build and refit: the exceptionally high quality of the end product, both aesthetically and functionally.

Whether your boat is 20 or 200 feet, sail or power, commercial or recreational, bring her to Front Street Shipyard, where the sky is no limit to what we can do.

LAUNCH A DREAM

PHOTO BY BILLY BLACK

Where do dreams come from?

From out of the fog and the
deep waters off a rocky coastline.

From the inspiration of four centuries
of tradition.

And from working in partnership with
artisans who know that if something's not exactly right,
it's hopelessly wrong.

DON'T CHEAT ON YOUR DREAM.

SW Boatworks | Lamoine | (207) 667-7427 | swboatworks.com

SW Boatworks is located in Lamoine, nestled between Mount Desert Island, Ellsworth, and Downeast Maine.

During the past 17 years, Capt. Stewart Workman and his highly skilled crew have constructed custom sportsfishing vessels, commercial fishing boats, Coast Guard-approved passenger boats, law enforcement vessels, research vessels, and pleasure boats. Our experienced crews coordinate all aspects of the construction—from the initial layout to custom design, from hookups to electrical, from start to custom finish.

An exclusive builder and home of the Calvin Beal and Young Brothers boat designs, SW Boatworks chose to represent these classic boats. Each boat is unique and needs to exceed the expectations of each owner.

The Calvin Beal boat design shows stability, seaworthiness, and spaciousness. This boat is known for its handsome strong lines,

beam, and versatility for fishing and cruising. The Calvin Beal is proven by fishermen and enjoyed by yachtsmen.

The Young Brothers boat is designed for a unique experience—a lazy afternoon on the hook, racing across a sun-dappled sea, slipping off the deck shoes and relaxing, entertaining guests, or visiting exotic ports of call on an extended cruise. The Young Brothers lobster boat design is powered by a single inboard diesel engine, which drives the yacht to perform comfortably.

SW Boatworks believes in building more than just boats. We are known for our commitment to each boat, the statement it makes on the ocean and the owners it represents.

YARMOUTH BOAT YARD has been servicing and selling new and quality used boats since 1948. A full-service marina, they have over 100 slips and can accommodate boats up to 46'. Both outdoor and indoor heated winter boat storage is available and their expert technicians can handle everything from painting and detailing to fiberglass and gelcoat work to engine overhauls, routine maintenance, or installation of all your marine electronics.

Michelangelo had his ceilings.

We prefer boats. Boats designed with an elegant, understated line. A maritime tradition that spans 400 years. And a spirit of innovation that burns brighter than ever. No one has more to draw on.

Maine Built Boats, a 501(c)(6) nonprofit organization, was established in 2005 to strengthen and expand Maine's boat building industry. The organization is creating a unified brand that presents Maine as a worldwide leader in boat building quality,

technology, and craftsmanship. MBB will use unique and aggressive initiatives to promote the brand and increase demand for Maine built boats in regional, national and international markets and strengthen the boat building community.

MBB partners with the state and federal government to leverage resources and develop a favorable business environment for the Maine boat building industry. In addition, the organization is dedicated to supporting marine industry training and the development of technologies that enhance industry products and performance.
